Fourteen-Year-Old Mary Kidder Sees Wonderful Things on Her Strange Journeys Beyond the Pearly Gates.

BRINGS MESSAGES FROM THE DEPARTED, SHE SAYS.

Describes Fully the Appearance of Persons that She Never Her Physician.

KALAMAZOO, Mich., Dec. 3.-Mary A. Ridder, fourteen years old, has created ittle wonder and amazement in this ety by her stories of visions of the destial regions and her startling revelaons of events that occurred many ears before her birth.

The young girl has developed a habi of falling into trances wherein she asserts are revealed to her all the angels heaven, the pearly gates and all that lies within the empyrean heights. Miss Kidder has on an average three trances a day. Angels come

tier, and tear her away to heaven and there reveal to her the past, present and future. Hundreds of persons have visfied the young woman at her home and with astonishment to her stories of events that have filled their lives and of which she could through no tangible sources have obtained informa-

This strange young person also brings of excitement by her accounts of innever caw or heard of, long dead relatives of strangers to her, whom she described in the spirit as they were in the flesh.

Foretells Her Own Death.

She foretells the details of her own death and that of her father, mother and near relatives. She describes her conversation with the heavenly wraiths he meets with graphic detail and pictures minutely the objects she passes in her trance journeys.
"I can't tell just what the sensation is

she says. "I can't tell just when the trance is coming on. It strikes me auddenly. I lose control of my body and seem to be carried up, and up, and up to an almost unimaginable height. air seems soft and fans my face. through the clouds and then sudden I know that I am in heaven. About are no houses nor streets. Beautiful hite-robed angels are singing and talking and sailing through the air flashed through two immense white pearly gates, and then the whole beauty f the place is before me.

"Colors of every hue and description and the most beautiful music I ever heard are on every side. I seem to know all the people there and they come to me and talk. It all seems so strange me. The angels tell me their names, and when I come back here and repeat I find the living relatives of the angels wight here and they look at me and

"No words can describe what heaven easily is. I try to cry out my joy, but find I am unable to move either and or foot. One of the spirits told me that when I die I will be free to move about just as gracefully as they do. I cannot understand how the angels pass through the air. They have no wings, nor do they walk. They just mean to be taken through the air in eny direction they wish to go."

Told Woman of Her Husband. To Mrs. Addie Hess, of Kalamazoo, whom neither the girl nor her parents knew nor had ever seen before, she Acad husband and of several relatives dead for years. To other men and women she described events in their lives fifty years ago which they asserted were true in every panticular.

To Mrs. Mary Pressable she named and described her mother, who had been dead twenty-five years, and told of a daughter and husband dead ten and twenty years, respectively.

For some years the girl has suffered from nervous and spinal trouble and last July curvature of the spine developed. Dr. Frederick Shillito, her physician, says that she is in a very peculiar condition.

"She has what is called catalepsy," said the physician, "and when in that condition people often have peculiar ideas and strange visions. I have seen her in this condition and heard her tell men and women who came to the house of their relatives dead for years. Whether all she says is true or not i, of course, cannot say." serted were true in every panticular.

COES TO HEAVEN WINTER IS COMING IN HER TRANCES BRINGING (C.A.

Every sufferer from Catarrh dreads the coming of winter, for with the first breath of the frost-king this miserable disorder is fanned into life and renewed activity, and all the disgusting symptoms come back. With every fresh cold the temperature begins to rise, the skin becomes hot and dry, the head aches almost to the point of bursting, the eyes are inflamed and red, the nostrils are stopped up, and the mucus discharges, at first thin and watery, gradually become thicker and yellow and often exceedingly offensive. The throat and all the inner passages and cavities of the head are irritated

by the acrid secretions, resulting in loss of smell and deafness, and injury to the soft bones of the cheek and nose, while the voice loses its natural Saw in Life-Catalepsy, Says tone and has a harsh, rasping, unnatural sound.

But, if not arrested, Catarrh doesn't stop here; the mucous poison passing from the throat into the stomach and bowels, is taken up by the blood and distributed through the system, and the Liver, Kidneys, Stomach, Bladder and all other parts of the body become infected, and the disease which was considered so harmless and simple in the beginning has become constitutional, far-reaching and serious. Catarrh must be treated through the blood, for it is a systemic disorder, a taint in the blood, that inhalations, washes, powders and salves cannot reach, and those who have tried them know the effects are only temporary, that as soon as winter comes with its cold rains, heavy fogs and chilling winds, it brings back Catarrh and sweeps away all the good that a long and faithful use of local remedies has accomplished.

To reach inflamed membranes, check excessive secretions of mucus and cleanse the feverish blood, requires an internal remedy-one that enters into
